

TESTIMONIAL

Feels good sir !! :) :) !! great ,
empowering and getting more
confidence !! :)

your teaching is very effective & has
given me a new way of looking things

It was a very different class - we felt
like sitting in the class there only
despite it being online classes !!! :) :)
!! it was a unique experience !! :)

very relieved that all aspects of GS4
has been covered comprehensively.
Plus I was very happy to attend such
an interactive class. Got to know my
classmates also and learnt from their
experiences and answers as well!! :)
Thank you all! Will continue learning.

TESTIMONIAL

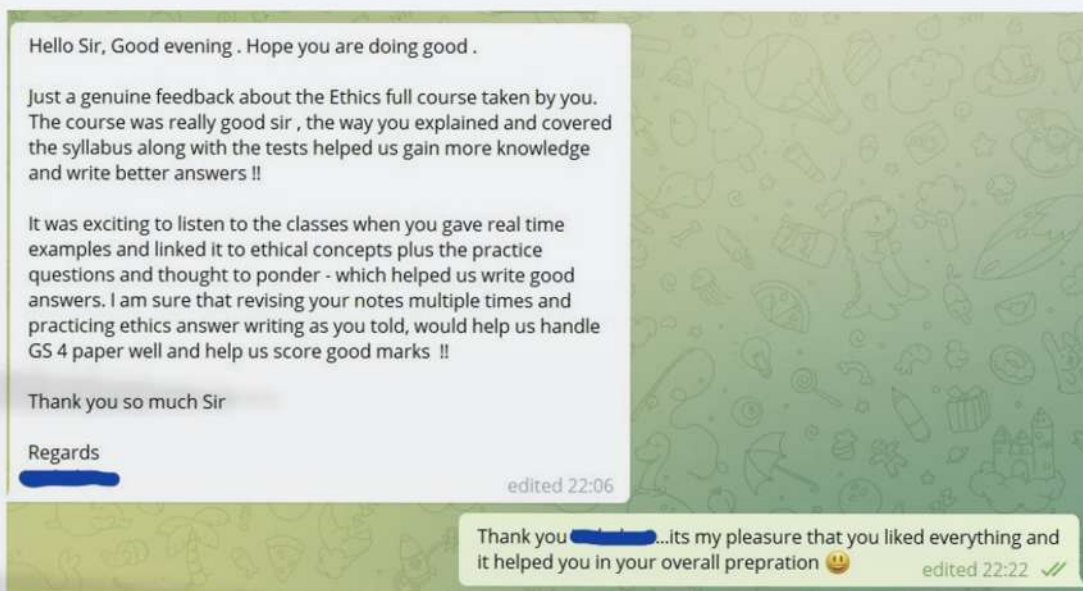

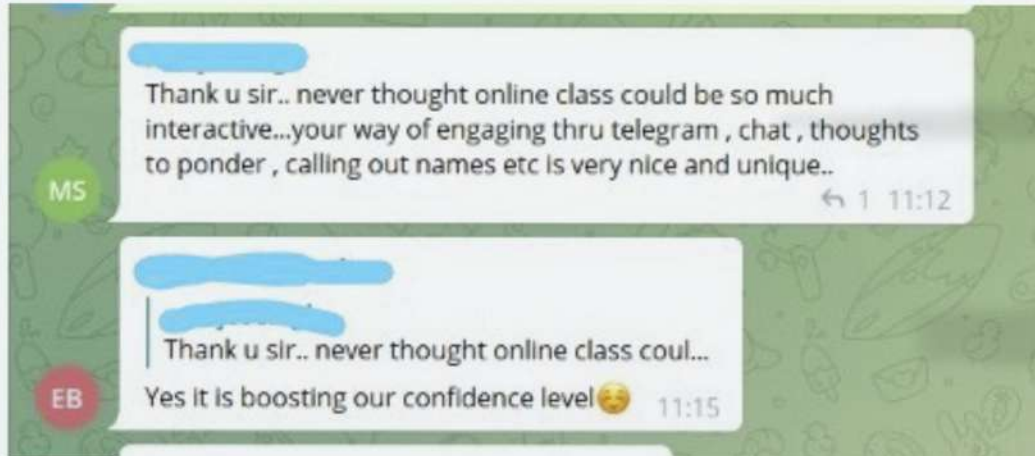

As a person who always had a science and maths orientation towards studying, ethics has been my Achilles' heel when it comes to Mains. I feared the Case Study section, I was clueless about addressing essay topics that required a high degree of ethical analysis. Following Sir's guidance, I have greatly overcome that hurdle. The multiple sessions with him on enhancing my answer writing strategy for GS 4 papers and Essay as well his the Analytica video series have become my cornerstones. He ensured not a single base is left uncovered, be it how to break-down a question, practice answer writing, strategy for different types of case studies, enhancing the answer quality et al. over multiple sessions in person, texts and over the phone. At the risk of sounding like flattery, it kindled a new found interest in the subject. This culminated in my discovery of Stoicism, a philosophy I have adopted as a form of life over the last 10 months. I went on to read Meditations by Aurelius in my leisure time, and obviously had multiple discourses with Sir on the same.

It is the quality of mentors like Himanshu Sir that sets the institute apart from its contemporaries. Whatever the outcome turns out to be with UPSC, the values I have learnt in this phase of my preparation will stay with me for life. And I believe, precisely this is what UPSC expects from every aspirant.

Regards,

5. Any Feedback/ Suggestions for our ETHICS faculty ? *

I have always seen Sir as a very considerate and student oriented individual, who tracks performance of his students and always try to motivate them to come put of their comfort zone.I really want to thank him for helping me out with my answers and for always motivating me to improve further.

4. How was your experience with ETHICS Test discussions ? *

One of the most enriching discussions in terms of content as well as interaction level. Though discussions are virtual, but Sir, always try to create a lively environment and try to provide the most satisfactory explanations for all the issues. The best part about these discussions is that there is no generalisation and every one is allowed

Previous message

Dear all, The Ethics full course classes will start from tomorrow - 14 August. The timing

Sir, Your way of teaching is really comprehensive and engaging. It is helping us develop right perspective. The examples you give, we are able to easily correlate with our life. And your accessibility to clarify the doubts and to evaluate the answers promptly is really commendable.

We are really fortunate to learn from you, not only the syllabus topics but the overall attitude towards things around us.

SK

Happy teacher's day sir!
